

## AMENDMENTS

Please amend the application as indicated hereafter.

### In the Claims

Please substitute the following clean copy claim for pending claim 1:

- D1 1. (Three Times Amended) A modular system interface comprising:  
a main panel configured to be attachable to a rack, the main panel including a plurality of sub-panel cut-outs, each sub-panel cut-out having two sub-panel slots, the main panel further including a pair of attachment elements located adjacent to each of the sub-panel slots, the attachment elements of each pair positioned on opposite sides of the respective sub-panel slot;  
a plurality of sub-panels configured to be attachable to the main panel, at least one sub-panel including at least one connector cut-out, wherein each sub-panel spans across a respective sub-panel slot and individually attaches to a respective pair of attachment elements; and  
a plurality of connectors configured to be insertable in the at least one connector cut-out and attachable to the respective sub-panel, wherein the at least one sub-panel is configured to support one predetermined type of connector.

Please add the following new claim:

- D2 22. (Newly Added) The modular system interface of claim 1,  
wherein at least one sub-panel spans across both sub-panel slots of a respective sub-panel cut-out and is attachable to the two respective pairs of attachment elements.
